2 Limited numbers

1 The number of numbers between two numbers

To calculate how many to compensate in the relationship

1 - minor = major

The limited numbers of a number

To another number:

1+ Minor-major

Readable pages

1 + minor = major

2 , 3 How many are enclosed, brown

A 92 B 93 C 94 D 95

Answer: D

Legend training

, 9 how many are confined, brown

A 89 B 93 C 94 D 95

3 Muhammad·s rank in the class was

How many demands between them? 50 brothers

A 12 B 13 C 14 D 15

Answer: C

The number of students between them is like the numbers between:

Legend training

50 His brother·s rank was Muhammad·

How man

A 9 B 12 C 13 D 14

4 ho

A 95 B 96 C 97 D 98

Answer: C

Legend training

A 92 B 93 C 94 D 95
